HCS 2022-2023 Safety Plan

As we prepare to return for the 2022-2023 school year, it is time to review the Sonoma County Department of Public Health guidelines (SCPH) for COVID-19 mitigation in schools. It should be noted that the California Department of Public Health has not updated their guidance for the 2022-2023 school year at this time. If changes to protocol are required, the HCS COVID-19 Safety Plan will be updated accordingly.

- Currently, the [CDPH guidelines for K-12 Schools](#) released at the end of June 2022 remain in effect and are unchanged for the start of the 2022-2023 school year.
- Sonoma County Department of Public Health recommends that all students be home tested for COVID-19 prior to returning to campus. Best practice is to test within 3 days of return.
- The Sonoma County Department of Public Health encourages the wearing of masks indoors, but they are not required.
- All positive COVID tests must be reported to HCS throughout the 2022-2023 school year, unless this requirement from SCDPH is changed.

HCS Contact Tracing Support

- The HCS *Contact Tracing Support Contacts* have been certified as contact tracers and will provide initial contact tracing, such as creation and submission of lists of exposed students and staff to the local health department and notification of exposed persons.

Primary Contact Tracing Support **	Stacey Arancio, Office Manager	sarancio@harvestpetaluma.org 707-763-2954
<ul style="list-style-type: none">• 'John Hopkins University, COVID-19 Contact Tracing Certificate of Completion' (09/23/20)		
Lead Contact Tracing Support **	Carol Castillo M.D. Health Liaison	ccastillo@harvestpetaluma.org 707-763-2954
